A BBC survey revealed that 1 in 5 young people are caring in England meaning 800,000 young people of secondary school age are looking after a parent or sibling.

YOU MAY NOT THINK OF YOURSELF AS A YOUNG CARER WHO IS A CARER?

YOU MAY CARE FOR SOMEONE BY HELPING THEM:

- Get washed
- Get dressed
- To communicate
- Do extra jobs around the house
- With shopping
- With paying bills
- With medication

YOU MAY FEEL RESPONSIBLE FOR:

- Checking they're ok
- Taking action when they need support

48% OF YOUNG CARERS UNDER 10 WHO TOOK PART IN THE CARERS TRUST SURVEY SAID THEY GET UP DURING THE NIGHT TO CARE.

Being a young carer can be hard sometimes and your life may feel different to others around you – but you are not alone, there is help for you.

Being involved has made me feel quite good and the most important think has been making friendships.

You may:

- Find it hard to concentrate or keep up with others at school
- Feel lonely, isolated and left out, and you might be bullied
- Believe you're the only one who has extra responsibilities
- Not be able to do the things your friends and other children your age are doing
- Not be able to take care of your own health or do things that are important to you

There are also good parts of being a young carer such as learning important life skills earlier, being able to handle difficult situations more easily than others your age and understanding what other people need to feel loved and cared for.

As a young carer, we can support you to have a healthy, happy childhood where you can do well at school and in what you choose to do, have friends and look forward to a future of your choice.

46% OF YOUNG CARERS SAY THEY OFTEN FEEL LONELY AS A RESULT OF CARING.

INFORMATION FOR FAMILIES

Is your child a young carer? If so, you may feel your child doesn't need any support, especially if they haven't asked for it. We know from our work that young carers benefit enormously from support designed just for them. We are aware that asking someone outside of the family for help can be difficult but you / your child can speak to us in confidence and contacting us can be an important step for you and your family.
