Who we are

A charity that provides free and meaningful support to carers in Solihull aged **from 5 years old to 95+**

Why we need your support

Caring for a loved one can happen to any one of us at any time or stage of our lives. The number of people caring is growing every day and we want to reach and improve the lives of every carer of all ages and backgrounds. Carers look after family members or friends who require care due to physical or learning disability, mental health needs or long term or terminal illness. Caring can be deeply rewarding but can also consume a lot of time and physical and emotional energy. We exist to enable carers to have equal access to fulfilled lives and keep families together. As a charity - **we rely on donations** to support our work.
